The house is a 1-1/2 story, log structure sheathed in clapboard but now covered with asbestos siding. The foundation is stone. The main (east) facade is three bays with a central doorway and flanking 6/6 double hung sash. In the gable is a central shed-roofed dormer with two six-light windows. On the south end, there is a one story wing with a central doorway and flanking 6/3 double hung sash. The rear facade of the main block is identical to the main facade.

Between the two wings is a one story fireplace with a free-standing brick stack. On the north end there is a one story stone fireplace with a narrow brick stack.

In plan, the main block is two rooms divided by a vertical board partition wall. The door between the rooms is also beaded board with chamfered rails. The mantles are of the Federal period with a simple moulding surround. In the corner of one room, along the partition wall, is a boxed staircase.

The clapboard siding is nailed to vertical nailers that are, in turn, nailed to the logs.
